

Teaching & Learning Activities – Stage 2

2021 Term 3 Week 2

Please complete the activities in your homework book or up-load to google classroom. **Parents need to monitor the use of Youtube.**

	Monday	Tuesday	Wednesday	Thursday	Friday
Morning	<p>English-Read Episode 1 of 'The Barber shop' comic.</p> <p>How are the characters and plot creating an interesting narrative?</p> <p>How have the main character/s changed? What/who is responsible for this?</p> <p>What do you think will happen next?</p> <p>Any other comments or thoughts.</p> <p>Writing-Magic Biscuits</p> <p>Brainstorm some ideas and answers using the following questions-</p> <p>What had happened when Brian fed the biscuits to his dogs?</p>	<p>English-Read Episode 2</p> <p>Invent your own 'hairstyle'. Draw it and write a descriptive paragraph describing it.</p> <p>Writing – Today write the beginning of your story. For example:</p> <p>Brian had often bought things from the market that had turned out to be the most outrageous, disappointing fakes.</p> <p>He had presumed that the magic biscuits would have been exactly the same. How wrong he had been...</p>	<p>English-Read Episode 3</p> <p>Interview a character-see sheet following.</p> <p>Writing –Continue your story...use your planning from Monday to help you.</p>	<p>English-Create your own Episode 4 including solving the mystery!</p> <p>Writing –Finish your story today, How is the problem solved?</p> <p>These sentences are 'sick' and need your help to get better. Can you help?</p> <p>The dogs ate the biscuits.</p> <p>They started to grow really fast. Now they are big. They need to eat a lot of food.</p>	<p>English-Write and/or draw a poster advertising 'The Barber Shop' .</p> <p>Writing- Edit your story today. Remember to check punctuation, spelling and 'fix' any sick sentences! Publish it on Google Classrooms for your class to read and enjoy!</p>

[Type here]

Monday	Tuesday	Wednesday	Thursday	Friday
<p>How quickly did they grow to this size do you think? Did Brian give the biscuits to anything/anyone else?</p> <p>How will Brian keep them as pets? What are the benefits/problems with having such enormous pets? Is there a way for Brian to restore his animals to their original size?</p> <p>Spelling: This week-‘p pp’ and ‘r rr’</p> <p>Complete the matching beginnings with their endings sheet following.</p> <p>Use the soundwaves login to access this week’s games and sound activities.</p> <p>Soundwaves password: Year 3: moss245 Year 4: king731</p>	<p>Watch ‘Behind the News’ on ABC. Choose your favourite story. Write a summary of the story.</p> <p>Spelling: Complete the activity sheets following.</p>	<p>Spelling: Use at least 10 words from your list to write in alphabetical order. Write down the meanings of at least five.</p>	<p>Spelling: Complete the matching past and present sheet following.</p>	<p>Spelling: Use a magazine or book to find words that contain this week’s sound, write down the most interesting ones you can find!</p>

	Monday	Tuesday	Wednesday	Thursday	Friday

THE BARBER SHOP SCISSOR TWISTER

EPISODE 1
THE UNDERCUT

Welcome to New Wolf City.

The end of a busy day.

A sense of anticipation drifts through the air ...

... because everyone knows what's on its way.

YAWN!

A FULL MOON!

Each full moon brings magical powers to the city's citizens.

POW!

Werewolf powers!

THE BARBER SHOP SCOROR FAWWELER

Full Moon Parties in New Wolf City are THE BEST!

There's plenty of dancing ...

... howling at the moon ...

... drinking Wolfshakes ...

... and watching Star Trak.

And when the sun returns and the party's over and all the werewolves have had their werewolf nap, it's time to get a haircut to shed that excess hair.

Wally Werewolf has always owned the best barbershop in New Wolf City. In fact it's the only barbershop in New Wolf City.

Wally and his apprentice, Marg, prepare the shop.

Should be busy today, Mr. Wally?!

Oh yes, Marg. There will be queues of hairy customers as far as the eye can see. Just the way I like it!

Let's open shop and start the bell rolling. Switch on those clippers and sharpen those scissors!

Hello and welcome to ...

OH MY! I don't believe it!

What is it, Mr. Wally?!

We've got competition, Marg ... and they're right across the road, stealing our customers!

ANDREW

THE BARBER SHOP
SCISSOR TWISTER

EPISODE 2
NEW WOLF CITY. POLLY'S
HAIROWORLD HAS STOLEN EVERY
WEREWOLF CUSTOMER FROM
WALLY ... AND HE'S NOT HAPPY!

Still no customers. What could be so special about Polly's? I need to find out what's going on inside that place.

Marg! I need you to go on a super-secret, deep-cover mission of the utmost importance. I need you to pretend to be a normal, everyday, happy-go-lucky customer and sneak into Polly's.

I need to know what's going on inside that place. I need to know EVERYTHING! NOW GO!

Soon.
What's taking Marg so long?

Maybe she's been found out? Perhaps I shouldn't have sent her on such a dangerous mission!

RING
RING
RING
RING

Hello? Hello? Marg? Marg? Can you talk? What's happening over there?

I've been waiting in the queue for hours ... I've finally made it through the door.

Go on ...

I don't believe it! It's the most magical place that I've ever laid eyes on!

The shop is so gleamy ...

The Barber Shop Superior Barber

The hairdressers are so dreamy ...

The haircut's not cheasy.

I've discovered the owner, Polly Werewolf, recently graduated top of her class at the Wolfgang Diamond Dog School of Hair. She's an amazing talent!

Okay, Marg. Get back here and tell me EVERYTHING!

Soerl. ... and that's everything.

Good work. Um ... Marg, why are you wearing that hat?

Hat? Ur ... What hat, Boes?

What did you do?

Take off that hat at once, Marg!

I just couldn't help it, Boes.

Isn't it AMAZING?

Oh my! I didn't think the Octopus cut was even possible! We're in trouble. This Polly means business!

THE OCTOPUS!

THE BARBER SHOP SCISSOR TWISTER

EPISODE 5

CRAZY DISCOUNTS HAVE
LEFT BARBERSHOP CUSTOMERS
CONFUSED. BUT THERE ARE
MORE SHERMANS WHERE
THAT CAME FROM.

Marg! I have a new plan.
It's dangerous and will require
a disguise, but it will get
our customers back.
Are you in?

Go on ...

Takes this superglue
and packets of
thumbtacks.

Wait in line outside Polly's.
Once inside, here's
what you do ...

Soon.

Next
customer.

Okay, Doris,
time for your
shampoo.

POLLY'S SHAMPOO

THE BARBER SHOP SCISSOR SWISTER

Doris, you'll love our special shampoo. It's made right here on the premises, using only the finest natural materials.

Feel free to run your fingers through your hair. How good does the shampoo feel?

Um ... I can't move my hands.

HAHAHAHA

Um ... I'll be with you in a moment. Please sit down.

OOOHH

NO! COME BACK!

Someone's been tampering with the shampoo ... and I found these on all the seats.

Someone's been sabotaging our equipment ... and I know who!

THIS MEANS

WAR!

Name _____ Date _____

Book Title _____

Interview a Character

Choose a character to interview. In the speech balloons on the left, write questions for that character. In the speech balloons on the right, write what you think the character might answer. You might ask why the character acted a certain way or how the character felt at different times in the story.

List Words

keep _____
 kept _____
 hope _____
 hoping _____
 stopping _____
 leap _____
 leapt _____
 asleep _____
 slept _____
 spring _____
 sprang _____
 upstairs _____
 prepay _____

1 Circle the letters that represent  in the List Words.

2 Write any other letters that can represent  on the Grapheme Chart.
 Write one word example for each.

3 Write one stroke for every sound in each List Word.

4 Write the letters **sp** or **spr** to finish the words. Colour the word that is the synonym in the row beside each one.

Turn to **11** page 79.

_____ash
 _____ead
 _____ang

spring squeak squirt splint
 scratch stretch strap sprout
 slept kept leapt wept

5 Write the past tense of the verbs (doing words) in the brackets to complete the sentences.

Turn to **8** page 79.

Mum _____ all my school pictures. (keep)
 When we were babies we _____ in cats. (sleep)
 The frightened cat _____ over the fence. (leap)
 Yesterday we all _____ for rain. (hope)
 Last night the buses _____ at midnight. (stop)
 Yesterday my dog _____ up on our table. (spring)

6 Write words from the box to match the meanings.

 The prefix **pre** can mean before. For example, **prearrange** means to arrange before an event.
 The prefix **up** can mean up or upwards. For example, **uphill** means up the hill.

pay before actually going to an event _____
 before the actual date _____
 letters before or in front of a word _____
 up the stairs _____
 move up a grade _____
 the right way up _____

Grapheme Chart

letters	words

List Words

- cried
- scrap
- right
- write
- riding
- free
- rich
- hurry
- front
- arrive
- scrape
- rewrite

1 Circle the letters that represent **r** or **w** in the List Words.

2 Write any other letters that can represent **r** or **w** on the Grapheme Chart. Write one word example for each.

3 Write one stroke for every sound in each List Word.

4 Write List Words that are antonyms for the following words. Turn to 10 page 79.

- wrong _____ back _____ leave _____
- caged _____ poor _____ laughed _____

5 Complete the table below. Turn to 1, 2 and 3 page 78.

start word	odd s	add ed	add ing
cry	hurries	arrived	scraping

6 Write words from the box to match meanings.

The prefix **re** can mean **back** or **again**. For example, **redo** means to do again.

- write again _____ paint again _____
- try again _____ build again _____

- rewrite
- rebuild
- retry
- repaint

Challenge

Write the blends **sp**, **spr**, **scr**, **str**, **shr** or **thr** in the robots to finish the words. The words in each robot must all begin with the same blend.

- ew _____
- ead _____
- oat _____
- ain _____
- ing _____
- ing _____
- etch _____
- awl _____
- awl _____
- iek _____
- ed _____
- ank _____

 proud _____
 probably _____
 opposite _____
 approach _____
 appear _____

1 Circle the letters that represent **pp** in the List Words.

2 Write any other letters that can represent **pp** on the Grapheme Chart. Write one word example for each.

3 Write one stroke for every sound in each List Word.

4 Unjumble the letters to make List Words containing **pl** or **pr**.

uropsd _____ lsapee _____ ybbarpal _____

lnepat _____ inxalep _____ pcrpoach _____

5 Write a homophone for each underlined word to finish the sentences.
 Turn to **14** page 79.

Poor Pam made a mess trying to _____ the paint.

The bus passed you before it drove _____ me.

The plans on this _____ of paper will help to make peace in the world.

_____ shot up my arm when my hand hit the window pane.

6 Rewrite these List words adding **p** or **pp** to represent **pp**.

roud _____ oor _____ slash _____ robably _____

sray _____ ale _____ oosite _____ explain _____

oear _____ iece _____ lanet _____ aroach _____

7 Join the prefixes to their meanings. Write words from the box to match the clues.

Turn to pages 13, 19, 21, 27 and 38.

fore	not
im	out of
ex	before

Bike Parts

Cut and paste the parts of the bike onto the picture.

bell	brake lever	seat	tyre
pedal	chain	gears	handlebar

Bike Riding is Awesome!

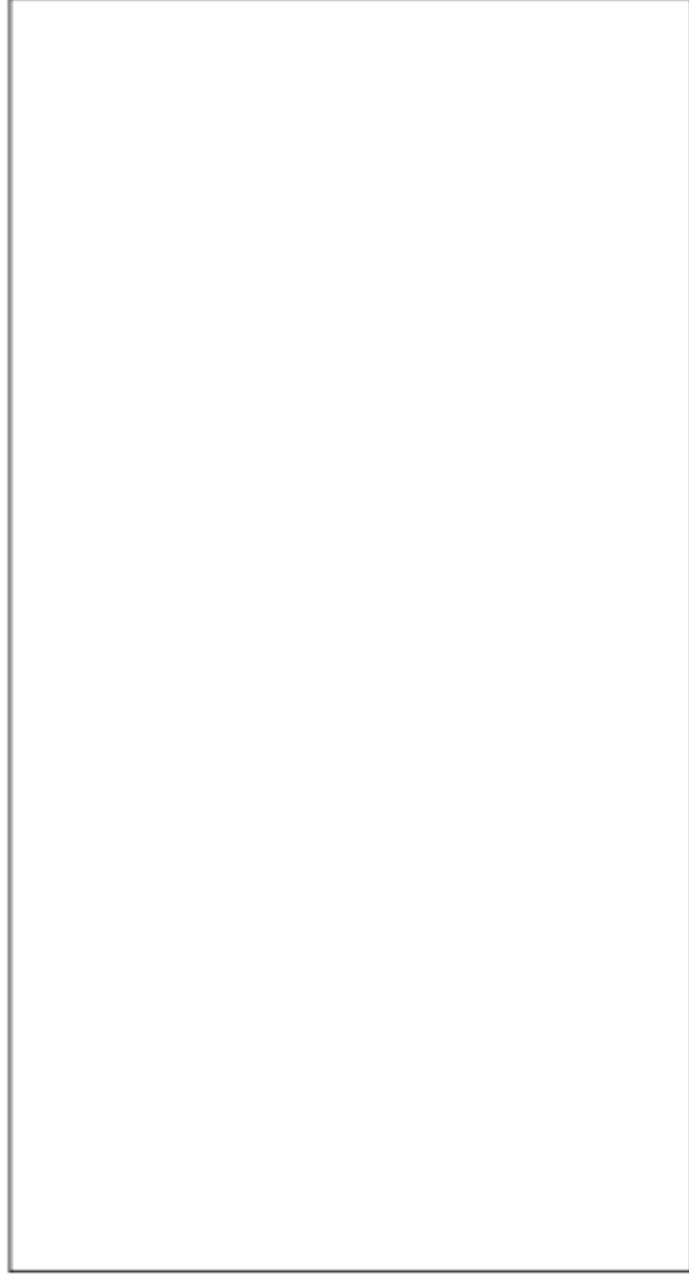

Fill in the missing words.

brain	exercise	riding
fitness	bones	energy

Bike riding strengthens the heart, lungs and lower body muscles and _____. It helps develop strength, balance and overall _____.

Bike _____ also helps with your coordination. Bike riding is a good form of _____ which helps your _____ to work at its best. Exercise also puts you in a good mood and gives you more _____. Bike riding is a great way to have fun with your friends and family.

Draw a picture of where you like to go bike riding. Write a sentence about your picture

Design your own Helmet

Using bright colours, design your own helmet pattern.

Helmets are Cool!

Cut and paste the sentences into true and false headings.

True	False

Wearing a helmet reduces your risk of serious injury.	Your helmet should be comfortable, not too tight or loose
You should wear a cap or hat underneath your helmet.	You should be able to fit two fingers between your eyebrows and the rim of your helmet.
You should be able to fit one finger under the strap beneath your chin.	It is ok for your straps to be twisted.
It is ok to leave your helmet out in the direct sunlight.	Wear your helmet whenever you get on your bike.

Science activities- What would happen if the teapot was made of ...chocolate!

3

Complete the Plus, Minus, Interesting thinking routine about teapots being made of chocolate.

P **M** **I**

Plus	Minus	Interesting

When you are making something, it is important to think about the properties of different materials, so that you can choose the best ones for the job. Teapots are often made from clay because, when fired, clay becomes a hard, durable (long lasting) and heat-resistant material.

4

Look at the images below. What material is the product made from and why has this material been chosen for the purpose?

gumboots

Made from: _____

Why? _____

a window pane

Made from: _____

Why? _____

walls of this house

Made from: _____

Why? _____

a towel

Made from: _____

Why? _____

5

Sometimes materials get a new job after their old one finishes. They are used for a new purpose. We call this repurposing. Complete the table for the images below.

image courtesy of recycle.org

SPORTAUS

Hit the target

Targets are set up away from a throwing line. Players score points by throwing, kicking or rolling a ball at the targets. Play in small groups, 3–4 per group.

Scoring

- > Consider a bonus point if a ball lands inside a target.
- > Set a target (e.g. 15). The team with the smallest number of throws or the most points in a set time (e.g. 45 seconds) wins.
- > Have students set an individual goal and try to beat their score in 3 to 5 attempts.

What you need

- > A variety of targets – such as 2-litre (or larger) plastic bottles with a little sand in the bottom, cricket wickets or buckets
- > Objects to throw – softballs, beanbags, tennis balls, soccer balls – 2 per player

What to do

- > Players throw, roll or kick a ball to hit or land in targets.
- > Each player has a set number of throws (e.g. 2).
- > Play is stopped to re-position targets that have been knocked over.

LEARNING INTENTION

Hit the target supports students to develop their shot placement, accuracy and strategy in relation to scoring zones in target games.

9

Look at these eleven mystery icons on the map.

- a** Find and circle them on the map. Tick each one off as you find it.
- b** Draw a line to connect the icon with its name. Use the clues in the brackets to help you.

Blue Hole (on the coast/in the ocean)

Dinosaur Fossils (in outback Queensland)

Underground Fire (the only icon in NSW)

Painted Cliffs (the icon that is the furthest south)

Fraser Island (near the Sunshine Coast)

Fairy Circles (in the northwest of WA)

The Pinnacles (in WA)

The Devils Marbles (north of Alice Springs)

Umpherston Sinkhole (the only one in SA)

The Horizontal Falls (the icon closest to the Timor Sea)

Wave Rock (east of Fremantle)

Lines and angles – angles

An angle is the amount of turning between two lines that meet.

There are lots of angles all around us. You have probably noticed many already.

Here are two examples of angles in your classroom:

angle

angle

- 1 Look at the angle on each open chest lid. Trace the angle and then order the treasure chests' lids from the smallest to largest angle.

- 2 Follow the directions about angles.

- a Tick the pair of scissors that has the largest angle.
- b Place a circle around the pair of scissors that has the smallest angle.
- c Find something in your classroom that has an angle larger than anything on this page and draw it below:

Lines and angles – angles

An angle is the amount of turning between two lines that meet.

Make an angle tester with two straight pieces of cardboard joined with a paper fastener.

- 3 Use your angle tester to measure and compare these angles. Order them smallest to largest by writing 1 to 4 under each one.

- 4 For this activity you will need a ruler and a sharp pencil. Follow the directions for each angle.

	Copy the angle	Draw a smaller angle	Draw a larger angle
a			
b			
c			

Lines and angles – angles

A right angle is an angle where two lines meet at a square corner.

Make a right angle tester by folding a piece of paper like this:

Step 1: Fold a piece of paper in half.

Step 2: Fold the same piece of paper in half again.

Step 3: Make sure that the creases are pressed down firmly.

You have made the corner of a square which is a right angle. A right angle is 90 degrees (90°).

- 5 For each shape, circle the corners that are right angles. Write the number of right angles inside each shape.

a

b

c

d

e

f

g

- 6 Find some right angles in your classroom and list them here:

Place value of whole numbers – place value to 4 digits

We can show the value of a 4 digit number on an abacus and also with base ten blocks.

- 1 is worth 1 000 or one thousand.
- 2 is worth 200 or two hundreds.
- 3 is worth 30 or three tens.
- 2 is worth 2 or two units.

- 1 Below are 4 different numbers written in 3 different ways. Find the 3 that match and colour them the same:

Thousands	Hundreds	Tens	Units
5	4	3	2
5	3	4	3
4	5	2	4
4	3	8	8

Five thousand, four hundred and thirty two

4 524

Four thousand, five hundred and twenty four

5 432

Five thousand, three hundred and forty three

4 388

Four thousand, three hundred and eighty eight

5 343

- 2 Write the number shown on each abacus:

Place value of whole numbers – expanded notation

- 3 Here is a numeral expander folded up at different places. Fill in the blank spaces to show all the different ways of naming this number:

1 576

One thousand five hundreds and seventy six

$1\ 576 = 1\ \text{thousand} + 5\ \text{hundreds} + 7\ \text{tens} + 6\ \text{units}$

 $1\ 576 = \underline{\hspace{2cm}}\ \text{hundreds} + 7\ \text{tens} + 6\ \text{units}$

 $1\ 576 = \underline{\hspace{2cm}}\ \text{tens} + 6\ \text{units}$

 $1\ 576 = \underline{\hspace{2cm}}\ \text{units}$

- 4 Put each of these numbers in a numeral expander.

a 1 567

b 2 567

c 5 789

d 7 624

- e Which number has 25 hundreds, 6 tens and 7 units? _____

- 5 Complete each row of the table like the first row:

Numeral	Expanded notation in numbers	Expanded notation in words
592	$500 + 90 + 2$	59 tens and 2 units
	$600 + 70 + 8$	
6 703		7 hundreds and 14 units
		67 hundreds and ___ units
		46 hundreds and 6 units
2 018		2 thousands and 18 units

83 could also be described as 83 units and 540 could be called 54 tens.

THINK

For both Year 3 and 4

Round and score

apply

Getting ready

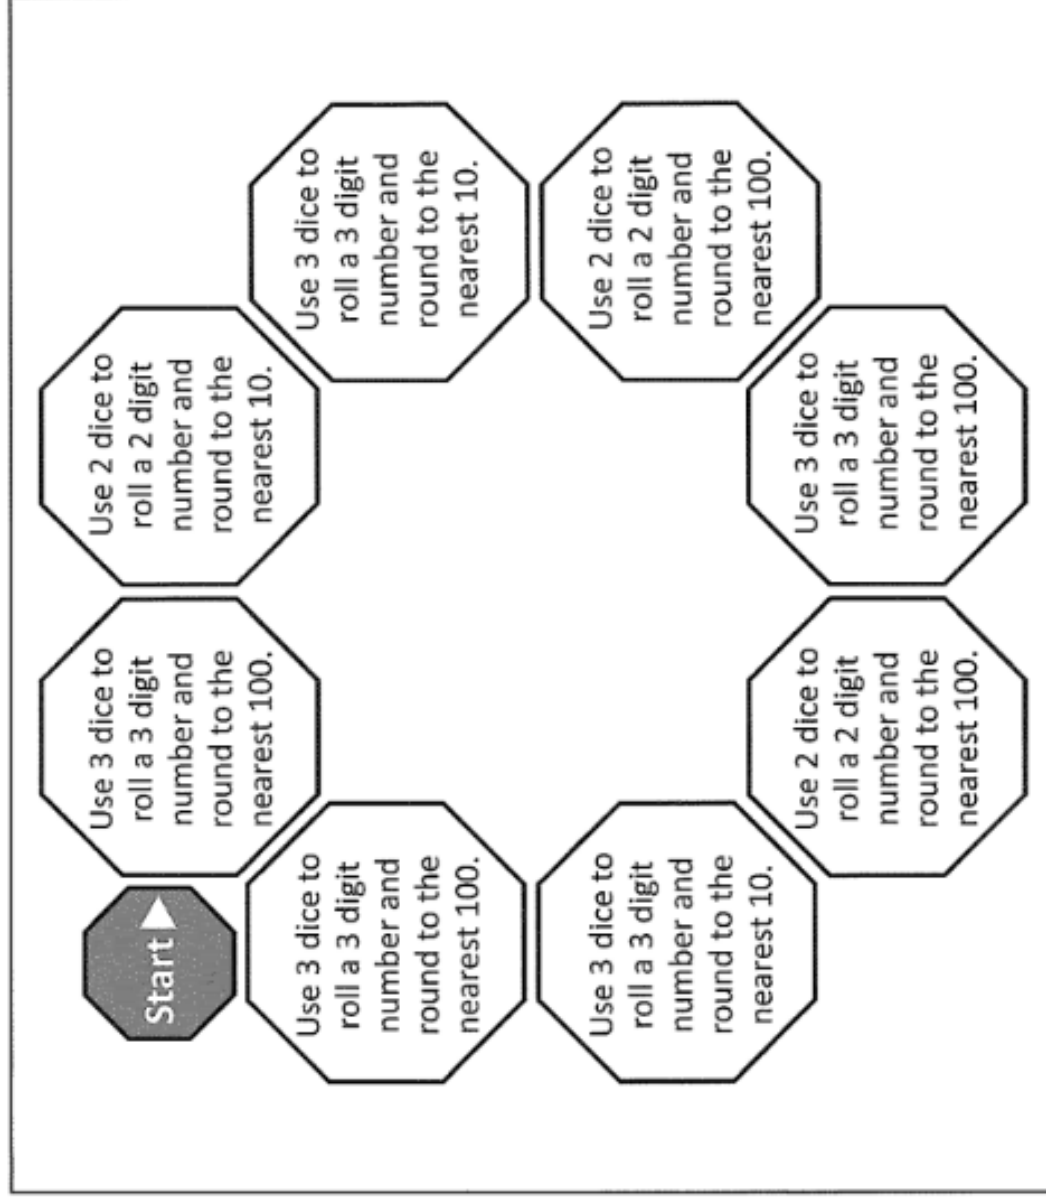

copy

This is a game for 2 players. You and your partner will need a copy of this page and 3 dice. Also you will each need a calculator to keep score and a marker.

What to do

Decide who will go first. Roll a die and move that number to the next octagon. Follow the directions and record your number. Take turns and keep track of your score on your calculator by adding the number you make on each turn. The winner is the first one to reach 1 000.

What to do next

Play again. This time, make it the best out of three.

Lines, angles and shapes – angles

An angle is the amount of turning between two lines that meet.

There are three classifications of angles depending on their size.

A right angle is 90° (degrees).

An acute angle is smaller than a right angle.

An obtuse angle is larger than a right angle.

1 Classify each angle as right, acute or obtuse.

2 Draw hands on each clock that show a time for each type of angle.

a Right angle

b Obtuse angle

c Acute angle

Lines, angles and shapes – angles

3 Use your ruler to draw three more examples of each type of angle.

a Right angles

b Acute angles

c Obtuse angles

4 Complete each closed shape according to the directions:

Shape **a** has 2 acute angles.

Shape **b** has 5 right angles.

Shape **c** has 2 acute and 2 obtuse angles.

Place value of whole numbers – place value to 4 digits

We can show the value of a 4 digit number on an abacus and also with base ten blocks.

1 is worth 1 000 or one thousand.
 2 is worth 200 or two hundreds.
 3 is worth 30 or three tens.
 2 is worth 2 or two units.

1 Write the number shown on each abacus:

2 Draw the beads to show the numbers:

3 Circle the digit that matches the place value:

a tens: 2 330

b units: 4 322

c hundreds: 9 218

d units: 5 661

e tens: 8 754

f thousands: 6 845

4 Add a bead to each abacus anywhere you like and write the new number:

Place value of whole numbers – place value to 4 digits

- 5 In the table below, write as many 4 digit numbers as you can where the digit in the hundreds column is greater than the digit in the thousands column and the digit in the units column is smaller than the digit in the tens column:

Thousands	Hundreds	Tens	Units

- 6 Record the steps you follow to wipe out each digit and turn it into a zero:

8 439

- a Wipe out the 3 _____
- b Wipe out the 9 _____
- c Wipe out the 8 _____
- d Wipe out the 4 _____

- 7 Now play this game with a partner:

First choose a 4 digit number and write it here:

Enter this number in your calculator and then take turns subtracting any digit 1 to 9 from this number. This time you must avoid wiping out any digits (changing any to zero). If you do wipe out a digit on your turn, you are out.

To win this game you need to keep your focus on the units column!

Place value of whole numbers – expanded notation

Numeral expanders show how a number can be expressed in different ways. Look at this example:

By folding the numeral expander it shows that 340 is made up of 34 tens or 340 units. This makes sense because:

$$34 \times 10 = 340 \text{ and}$$

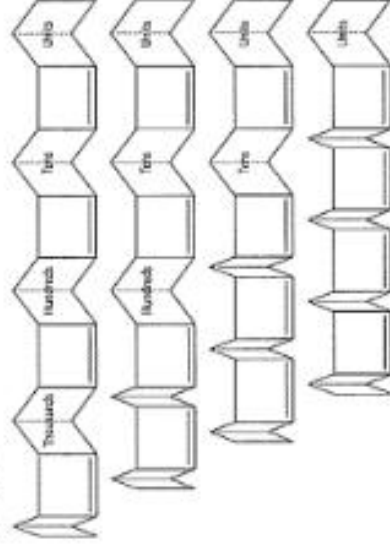

$$340 \times 1 = 340$$

- 1 Write the number shown on each numeral expander:

a 1 576

b 5 485

- 2 Complete each row of the table like the first row:

Numeral	Expanded notation in numbers	Expanded notation in words
4 672	$4\ 000 + 600 + 70 + 2$	46 hundreds, 7 tens and 2 units
	$5\ 000 + 200 + 30 + 9$	
3 180		61 hundreds, 4 tens and 2 units
		31 hundreds and _____ tens
		35 hundreds and 6 units
	$8\ 000 + 200 + 50 + 8$	

83 could also be described as 83 units and 540 could be called 54 tens.

THINK

Place value of whole numbers – expanded notation

3 Rename the following numbers in hundreds:

- a 4 100 _____ b 9 800 _____
c 6 700 _____ d 4 500 _____

4 Rename the following numbers in tens:

- a 5 560 _____ b 8 880 _____
c 4 570 _____ d 8 970 _____

5 Write the following amounts as numerals from the box:

a 32 hundreds, 9 tens and 2 units

4 107

b 4 thousands, 6 hundreds, 1 ten and 2 units

8 672

c 8 thousands, 67 tens and 2 units

4 612

d 41 hundreds and 7 units

3 292

6 Balance the scales by writing the digits that make both sides the same:

Renaming numbers is sometimes called regrouping. The number has the same value though.
